I am in the early stages of pitching a docu-series/documentary, highlighting the experiences and challenges faced by families of children with special education needs in our country. My daughter has been with a Talent MGMT company since the young age of 4. Her manager is interested in sharing her story of the abhorrent experiences we have had with her school and PWCS special education Dept. with producers. I want to be able to share more than my daughters story. The more verified stories we get the better it will sell to a network with a bigger audience. I need to hear from as many people as possible who have been negatively impacted by our school system because they violate protections given under the IDEA. Her manager has great working relationships with producers that have produced shows for PBS, Netflix, HULU, Discovery Channel and many more. My daughter has booked jobs through her and has been in commercials for the DSCC, National Trust For Our Wounded along with being in shows on the Discovery Channel and was even in an episode on VEEP. We remain in contact with many producers we have worked with and are doing everything we can to find the best network to help produce a docu-series or a documentary to help bring awareness to these issues. Again this is in the very early stages and having it produced will ultimately be determined on how many are willing to share their experiences with producers. Having receipts such as a paper trail via emails or video/audio recordings will help get your story verified to producers. Again, If you have encountered situations where your child was denied special education services or if you have been approached to misrepresent student special education services as a teacher, we would greatly appreciate hearing your story. Your experiences can help us create a compelling docu-series/ documentary that

Again, If you have encountered situations where your child was denied special education services or if you have been approached to misrepresent student special education services as a teacher, we would greatly appreciate hearing your story. Your experiences can help us create a compelling docu-series/ documentary that can give these important issues the visibility they deserve.

If you are willing to help by sharing your story please reach out to me via private message. Your identity and personal information will be kept confidential. Should your story interest producers you may at that time determine whether to stay confidential or not. Your input will be treated with the utmost respect and confidentiality.

 **Jells**
What sort of people are these? Is this how they
would treat their own child if they had cancer?

Laura Jean

This girl obviously has cancer, she was sick from
chemo! It wasn't a cold. Exceptions SHOULD be
made! Period.

The minute you said Chemo meds, I knew they
were absolutely in the wrong.

Just wanted to share this story that aired last night! There will be more that will be coming out soon that wasn't reported on last night that may air next week! If you applied to any specialty program at Colgan and have an IEP NOT a 504 please DM me! I specifically have information I FOIA that shows how they put kids like my daughter at a disadvantage specifically for the Art program. DM me if you were denied!

If you have a child that applied to any of Colgans Specialty Programs and your child has an IEP and was denied could you please send me a private message. I am trying to gather some data on discriminatory practices there.
